

Travel to Turkey

Effective April 10, 2014 the government of Turkey will no longer allow tourist or business travelers to obtain a visa upon arrival. As of April 10th, travelers will need to obtain an electronic visa (E-Visa) in advance of travel to Turkey. Attached is a report for all travelers to Turkey beginning 4/10-2/28/15. Essentially, the E-Visa is an electronic pre-authorization from the government of Turkey to allow a specific traveler to enter the country and is valid for 6 months from date of entry. This change will effect travelers from the U.S., Canada and 96 other countries. Travelers planning travel to Turkey must obtain an E-Visa prior to arrival in Turkey. More information can be found at <https://www.evisa.gov.tr/en/>
